COMMENTS:

Tall bull that really puts a butt on his calves. Might have slightly larger birth weight.
Very muscular with dark pigment and large ears. Show winner at Iowa Beef Expo.
Calves sired from this bloodline will be the feedlot animals to sell on the grid.
Bower Jr. was our herd bull for 9 years and his son for another 6 years.

COMMENTS:

When looking for a semen bull as successor to Emperor, I was looking for a different pedigree. The bull needed to have a mature weight of a ton with good height and muscling. I chose Wolfs Stretch 48 because of his dam, Silkie J, and his sire pedigree that included Avon Prairie Pride, a son of the imported bull Castleton Daniel. This is a good choice if you are concerned with birth weights.

COMMENTS:

Chester is the only son of the popular LPJ Xtra Lucky bull that has been collected. He was the Reserve Champion Bull in 2016 at KILE and Champion Bull at the 2017 New York State Fair. Both his sire and dam were Champions in their show career. He has a low birthweight and great disposition. Hw will produce quality calves that will give you good growth.

COMMENTS:

Nimmer's Chip is a result of over 30 years of breeding quality American British White Park cattle and he goes back to our foundation cows. He has good conformation and is well muscled with a great disposition and a low birthweight. Nimmer's Chip was also Reserve Grand Champion bull at the World Beef Expo in 2016 and 2017. We have several of his offspring which carry his traits of low birthweights and calm disposition.
